NIKHIL VEERWANI

Analytics & Business Intelligence | BigQuery, Data Modelling & Reporting Automation | Growth & Strategy

Bangalore, India | nikhilveerwani1993@gmail.com | linkedin.com/in/nikhil-veerwani | nikhilveerwani.github.io

SUMMARY

8+ years across analytics, business intelligence and growth. Today I own the **BigQuery layer** for Interview Kickstart's India business, modelling CRM, web analytics, ad-spend, webinar and payment data into governed views that **200+ sales, marketing and leadership users** rely on, along with the **automation and Slack alerting** the sales team acts on daily. My earlier roles were business-facing: I headed a mechanic loyalty programme that grew from **3k to 8k monthly active mechanics**, sat on Greaves Retail's strategy team, lifted category margins at Ebo Mart, launched supermarkets in **7 cities** and worked in a group CEO's office. **#IElevate Award (Q1 2026)**.

SKILLS

Querying & Modelling: SQL (advanced), BigQuery, data modelling & semantic layers, deduplication & identity resolution, attribution logic, data quality rules, scheduled transformations, warehouse cost tracking

Source Systems: HubSpot CRM, GA4, Meta Ads, Google Ads, Salesforce, Zoom, payment and spend data

Automation & Reporting: Google Apps Script, Slack alerting, scheduled queries, Zapier, Make

BI & Visualization: Power BI, Looker Studio, Advanced Excel, executive dashboards, data storytelling

AI: LLM-assisted analytics workflows and internal tooling (Claude, ChatGPT, VS Code)

Business & Strategy: P&L tracking, sell-in / sell-out strategy, category & margin management, channel loyalty programmes, market sizing (Vahan), city & store launches, program management, KPI frameworks, stakeholder management

EXPERIENCE

Manager, Growth Analyst — Interview Kickstart

Nov 2025 – Present | Bangalore

- Own the **BigQuery layer** for the India business: data from HubSpot CRM, GA4, Meta and Google ad spend, webinar and payment systems, modelled and reconciled into governed views used by **200+ stakeholders**.
- Own **lead deduplication and identity-resolution logic** across the lead base, including a revision of the matching window and a migration from rolling to anchor-based deduplication.
- Diagnosed and fixed a **channel attribution defect** where one acquisition channel was overstated by ~45%; built and validated a multi-check classification rule now used as the organisation's standard.
- Built a **lead-SLA alert**: a twice-daily automated job that flags leads uncalled within 24 working hours and routes them to Slack for the sales team to action.
- Built **automated Slack reporting** on capacity, slot utilisation and adherence against plan, plus an **analytics request-desk portal** with auto-prioritised intake.
- Built the **transformation and reporting layer** (scheduled BigQuery queries feeding Power BI and Looker Studio), replacing 4 manual weekly reports and **cutting a 3-hour reporting cycle to under a minute**.
- Established **metric definitions and join-key standards** across CRM, web, ad-spend and payment data, eliminating a recurring class of mismatched-identifier errors; track and optimise BigQuery warehouse cost.
- Ran segmentation and driver analysis that reset targeting criteria; drop-off analysis drove a **3% incremental conversion lift**. Presented pricing and segment strategy to the **CEO**; recommendation adopted.
- Designed and deliver a **70-day instructor-led SQL/BigQuery curriculum** and an AI/automation workshop programme.

Manager, Business Analyst — Greaves Cotton Limited (Greaves Retail / EV Aftermarket)

May 2023 – Nov 2025 | Bangalore

- Headed the **mechanic loyalty programme** (QR scan-and-earn app) end to end: campaigns, referral programme and dormant-user reactivation, with ownership of month-on-month growth. **Monthly active mechanics grew 3k → 8k**; programme revenue grew **8% MoM**.
- Launched a **referral programme** that added **20% more unique scanners MoM**. Identified **45% of dormant users as recoverable** and redesigned the programme, **lifting scanner adoption 80% in 3 months**.
- Member of the **Greaves Retail strategy team**: market sizing from Vahan registration data, sell-in vs sell-out strategy, market insight packs for leadership and **P&L tracking**. Built the KPI framework that focused investment on high-yield segments, driving **₹10 Cr+ (~$1.2M) in secondary sales** and ₹1 Cr+ in new revenue.
- Consolidated CRM, sales, service and inventory data into centralised **Power BI** dashboards as a single source of truth; automated weekly reporting, **reducing reporting errors 30%**.

- Diagnosed service failure patterns and led enablement of **470+ service professionals** pan-India, **cutting field service issues 38%**.

Senior Business Analyst — Ebo Mart Pvt. Ltd.

Apr 2022 – Apr 2023 | Bangalore

- Owned **category growth, revenue and margin improvement** with the category team: blended margin rose **11% → 17% in Lighting** and **3% → 5% in Wires**.
- **Introduced Power BI to the company** and built **10+ automated growth dashboards** across sales, procurement and supplier performance; defined the business KPIs and wrote the **SOPs for business operations**.
- Reduced inventory **Days on Hand to 30** through SQL-driven analysis of slow-moving stock, improving working-capital efficiency.

Program Manager → Executive Assistant to the CEO — Miraj Group

Oct 2018 – Mar 2022 | Udaipur & Nathdwara

- Launched the group's supermarkets in **7 cities across Rajasthan**: data-led geography and city selection, product selection and category mix, then launch operations in each city.
- Promoted to **Executive Assistant to the CEO**: strategy and business growth across retail, FMCG, cinemas and hospitality (business cases, market analysis, initiative tracking). Supported group landmark projects, including the **Statue of Belief**, Nathdwara.
- Member of the **Radisson hotel project** execution team, Nathdwara: program and project management from **cost approvals to implementation**, covering budgets, vendor coordination, timelines and leadership reporting.

Marketing Intern (City Launch) — Zoomcar India Pvt. Ltd.

Jul 2017 – Oct 2017 | Udaipur

- **Launched Zoomcar in Udaipur single-handed**: market research, promotional strategy, corporate events and café tie-ups, closing the company's **first corporate tie-up** in the city.

EDUCATION

B.Tech, Computer Science — Rajasthan Technical University, Kota, 2015

MBA, Marketing & HR — Mohanlal Sukhadia University, 2018
